Alvin Saju

Data / BI Analyst, Stamp 2 Visa

Address: Dublin, Ireland
Mobile: +353 89 246 3556
Email: alvinalvi86@gmail.com
Git Profile: github.com/alvinsaju7479

PROFESSIONAL PROFILE

Data Analyst / BI Analyst completing an MSc in Big Data Management & Analytics (Griffith College Dublin, 2026) with hands-on experience in SQL, Power BI, Tableau, Excel, and Python-based analytics. Experienced in data preparation, exploratory analysis, modelling, and visualisation, working with datasets of 50K–100K+ records and developing automated reporting workflows to support data-driven decision-making. Successfully delivered analytical projects, demonstrating strong problem-solving and data interpretation skills.

KEY SKILLS & CERTIFICATIONS

Core Analytics: SQL (Advanced), KPI Reporting, Data Cleaning, Exploratory Data Analysis (EDA)
Data Visualisation & BI: Power BI (DAX basics), Tableau Dashboards, Storytelling, Stakeholder Reporting
Programming & Analysis: Python, R (Statistics), scikit-learn (ML Models), Data Validation & Transformation
Databases & Data Warehousing: PostgreSQL, MySQL, Google BigQuery
Google Certs: "AI Essentials", "Maximise Productivity with AI Tools", "Discovery the Art of Prompting", "Prompting Essentials", Use AI Responsibly", and "Stay Ahead of the AI Curve".

RELEVANT PROFESSIONAL EXPERIENCE

DATA ANALYST (internship) – iDatalytics, *Kochi, India* **Sep 24 – Dec 24**

- Designed 5+ interactive dashboards in Power BI and Tableau to track churn, sales, and operational KPIs.
- Analysed 50K+ customer and product records using SQL, Python, R, and Excel to identify trends.
- Developed SQL queries and data models to extract, transform and structure data from multiple sources.
- Automated reporting workflows, reducing manual effort by 30% and improving insight delivery.

ACADEMIC PROJECTS

Fraud Detection System (End-to-End) – *Python, ML, SHAP, FastAPI*

- Investigated 100K+ transaction records to detect suspicious behaviour and fraud indicators.
- Built ML models and deployed FastAPI endpoints to deliver predictions for analytical tools.

Hybrid Recommender System – *Python, Content-Based+Collaborative Filtering, FastAPI*

- Built a hybrid recommendation engine combining collaborative filtering and item-based features.
- Processed user and item data to generate recommendations based on similarity and attributes.

Customer Churn Prediction (ML + Explainability) – *Python, scikit-learn, SHAP, Streamlit*

- Built ML models to predict churn, applied SHAP to interpret drivers, and created Streamlit dashboards.

Resume Analyser API – *Python, FastAPI, NLP*

- Created an NLP-driven resume analysis API to extract relevant skills and keywords from CV text and generate structured outputs for recruitment analytics. Implemented the system as a FastAPI service.

Analytics Engineering Platform – *SQL, Data Modeling, Analytics Pipelines*

- Built SQL transformation pipelines to convert raw data into analysis-ready tables for BI reporting.

ADDITIONAL PROFESSIONAL EXPERIENCE

CATERING ASSISTANT – Wright Group, *Dublin, Ireland* **Mar 26 – Present**

KITCHEN ASSISTANT – Maldron Hotel Smithfield, *Dublin, Ireland* **May 25 – Mar 26**

EDUCATION

2026 **M.Sc. in Big Data Management & Analytics** – *Griffith College Dublin, Ireland*
Project *Predicting Urban Traffic Congestion Patterns Using Distributed Analytics of Smart City Sensor Data*

2024 **B.Tech. in Computer Science & Eng.** (CGPA: 9.19 / 10) – *Viswajyothi College of Eng & Tech, India*
